

New Chat Widget colors available

2017-05-30 - Zara Marchesi - Comments (0) - Product

You can now set colors for the Chat Widget itself, allowing you to customize this feature even more!

How do I set the color?

Simply go into Admin > Chat > Site Widget & Chat, and customize your colors!

The screenshot displays the 'Site Widget & Chat' configuration interface. On the left, the 'Button settings' panel is visible, featuring a 'Label' field with the text 'Click for help', a 'Size' selector with 'Medium' selected, and a 'Colors' section. The 'Background color' is set to '#e60300', and a color picker is open, showing a red color selection. Below the color picker, there are options for 'Right' and 'Left' placement. The right side of the interface shows a preview of the chat widget on a website. The preview includes the Google logo, a search bar, and a chat window with a 'Sample question' and 'Sample answer'. A red arrow points from the '#e60300' color code in the settings to the chat widget's background in the preview. At the bottom of the preview, there are buttons for 'Discard changes', 'Save', and 'Reset to default'.
