Deskpro 2022.1.1

2022-11-21 - Lara Proud - Comments (0) - Release Announcements

The following information summarizes the bug fixes included in the Deskpro 2022.1.1 release.

Bug Fixes

Fixed a Data Sync Issue (user.require_unique_email fixes) (SC 65354).

Fixed an issue where ticket images were marked as temporary when submitted via a specific method (SC 71697).

- Fixed uploaded images in snippets.
- Fixed uploaded images in signatures.

Fixed an issue where AD Sync was stuck 'pending' with Paging enabled. And would only sync partially with Paging disabled (SC 55361).
