DeskPRO Build #170 Released

2012-11-05 - Chris Padfield - Comments (0) - Release Announcements

We are pleased to announce a new release of the DeskPRO helpdesk platform, build #170.

The following is an automatically generated list of changes in this release:

- Fix icon offset for notification tray, chat shows green/white/red for online/anyone online/no one online. Also fixes possible PHP notice on admin login if using external user sources.

If you are using the cloud version of DeskPRO, your account will have already been updated or will be updated within the next 24-48 hours.

If you are using DeskPRO download, you can update your installation from the admin interface.
