DeskPRO Build #318 Released

2014-03-06 - Chris Padfield - Comments (0) - Release Announcements

We are pleased to announce a new release of the DeskPRO helpdesk platform, build #318.

The following is an automatically generated list of changes in this release:

- CHANGE Ticket preview tooltip hides when moving away from the subject line. Makes it faster to quickly move the mouse cursor down a ticket list without having the tips stick around.
- FIX Custom ticket searches broke in the last update

If you are using the cloud version of DeskPRO, your account will have already been updated or will be updated within the next 24-48 hours.

If you are using DeskPRO download, you can update your installation from the admin interface.
