Deskpro Release 2023.0.2

2023-07-17 - James Godwin - Comments (0) - Release Announcements

We have released version 2023.0.2 of Deskpro. This post summarizes the updates we have made to our legacy product.

Improvements

☐ For customers using DB Blobs we increased security by requiring inline blobs to provide auth.
$\hfill\square$ Improved the dangling-blobs command to fix error and add more places where blobs are referred to (SC 50825).
$\hfill \square$ Improved handling of email templates, when upgrading from the legacy email templates feature (SC 115479).

For details of the previous Deskpro release, see Deskpro 2023.0.0
