

New Chat Widget colors available

2017-05-30 - Zara Marchesi - Comments (0) - Product

You can now set colors for the Chat Widget itself, allowing you to customize this feature even more!

How do I set the color?

Simply go into Admin > Chat > Site Widget & Chat, and customize your colors!

The screenshot displays the 'Site Widget & Chat' configuration interface. On the left, the 'Button settings' panel is expanded, showing options for 'Label' (set to 'Click for help'), 'Size' (set to 'Medium'), and 'Colors'. The 'Colors' section is active, showing a color picker for the 'Background color' set to '#e60300'. A black arrow points from the color picker to the 'Sample answer' button in the chat widget preview on the right. The preview shows a chat window with a 'Google UK' logo, a 'Flexforce' header, and a chat history including 'Chat started', 'Chat assigned to Andrew James', and 'Sample question'. The chat input area has a red 'Click for help' button. At the bottom of the preview, there are 'Discard changes', 'Save', and 'Reset to default' buttons.
