For the approval email approve/reject link to not require a login from approver Collecting Feedback

- Michael Fliderman
- Forum name: #Feature Request

In the approval email for the approval/reject link to be all that the approver needs to click onthey should not need to log into Deskpro to complete the approval process:

## Sample Approval Title (83) This is a sample approval description Requesting agent John Doe User Scott Jordan Status Pending Approved 0/2 Rejected 0/2 Awaiting Response John Doe Scott Jordan Approval Criteria - To approve: 2/2 | To reject: 2/2 Approve<u>https://example.com/approve</u> Reject https://example.com/reject
