iframe code not saved while editing articles in the HTML Source Editor Collecting Feedback

- Sunny Liu
- **Forum name:** #Bug Report

V4 Build 428.3 I have this code in the HTML Source Editor `&lt;iframe src=&quot;https://www.youtube-nocookie.com/embed/Uyj15_rcxuw&quot; width=&quot;640&quot; height=&quot;480&quot;&gt;&lt;/iframe&g`  
After I save it, the code disappeared. I perform a direct mysql insert and it worked. Always able to replicate. Please check
