# Deskpro 2018.1 Release

2018-05-21 - Benedict Sycamore - Comments (0) - Deskpro Releases

We're delighted to announce the release of Deskpro 2018.1

Deskpro 2018.1 includes the product updates, new features, bug fixes, and additional company updates listed below:

#### **New Release Numbering**

We've changed how we number Deskpro versions and release announcements. You can read more about why and what that means **here**.

#### SSL Available as Standard

We've enabled SSL for all cloud customers. Find out more about that here.

#### **New Reports**

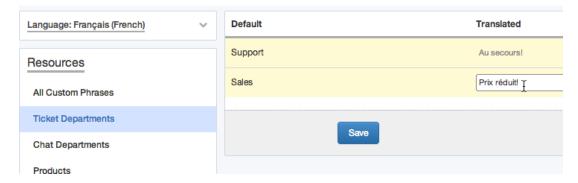

We've completely updated Deskpro Reports with new features, functionality, interface and more. You can read **this post** to discover everything you need to know about new reports.

### **Multibrand Update**

We've made a number of significant changes and improvements to the way multibrand works in Deskpro. Check them out <a href="here">here</a>.
