DeskPRO v3.5.2 with Chat v2 Released

2010-07-06 - Christopher Nadeau - Comments (0) - Release Announcements

We are pleased to announce DeskPRO v3.5.2 which includes a number of minor new features and many bug fixes. We encourage all customers to upgrade.

In addition, version 2 of our Live Chat plugin is included for customers who own a license for it. This new version sees a handful of new features and addresses performance and stability issues discovered in the previous version.
