Best Practice Consultancy

Benedict Sycamore - 2018-02-27 - Comments (0) - Consultancy & Services

If you're unsure about the best way to set Deskpro up for your organization, we can give you a hand.

Whether it's developing custom reports, or discovering how to unleash the potential of our powerful automation features, our experienced helpdesk team is ready to help.

We work closely with our customers to fully agree on the scope of work upfront, and deliver any projects we agree to for a fixed price over a defined timeframe.

If you're not a Deskpro customer but want to become one, we can provide a quote for any modifications you need as part of the sales process.

A small tweak can cost as little as \$250, with most projects falling between \$1000 and \$10,000. We require payment in advance for work under \$5,000. Projects over this size require 50% of the total fee upfront, and the remaining 50% upon delivery.

Each project can be just as diverse as the customers we work with, so please contact us to discuss requirements and get a quote.
