# Agent permission report Collecting Feedback

- JV Jaime Valencia
- **Naam forum:** #Feature Request

As part of our Annual review, we are looking for a list/report of Agent access rights of each group including the user on each group. We look at the reports but can't find any for this. The purpose of this report is just to document for our internal purposes the Agents access rights and also what groups can do certain things. I was just looking a better way to export that data as CSV or PDF.
