

I want to buy Deskpro but I need you to send me a quote or invoice

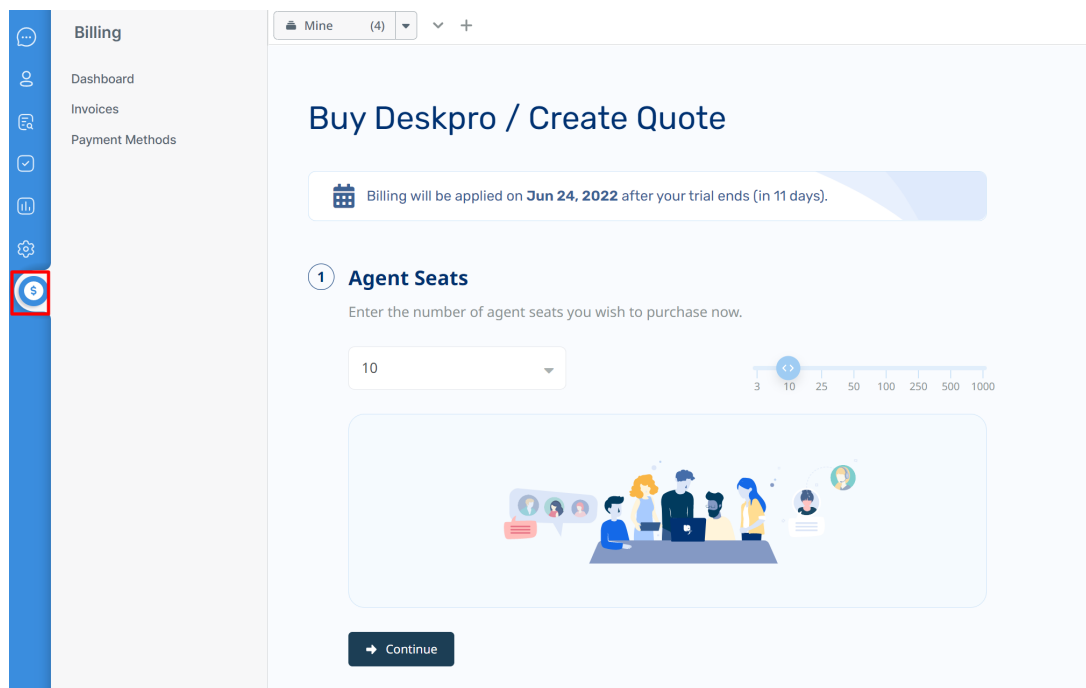

Ben Henley - 2023-08-10 - Reacties (0) - Payment & Renewals

On-Premise

You can generate your own Deskpro On-Premise invoice easily by visiting the [Buy License](#) link on our website. You can select the number of agents you require, your plan, and any professional services and then generate an invoice or quote.

Cloud

Cloud invoices can be raised from the Billing area of your Cloud trial. You can access the Billing area through the \$ icon on the Navigation Bar, indicated below. You can select the number of agents you require, your plan, and any professional services and then generate an invoice or quote.

The screenshot displays the Deskpro user interface for purchasing a quote. On the left, a vertical navigation bar contains icons for various functions, with the '\$' icon for Billing highlighted in a red box. The main content area is titled 'Buy Deskpro / Create Quote'. At the top, a notification states: 'Billing will be applied on Jun 24, 2022 after your trial ends (in 11 days)'. Below this, the 'Agent Seats' section prompts the user to 'Enter the number of agent seats you wish to purchase now.' A dropdown menu is set to '10', and a horizontal slider below it shows a range from 3 to 1000, with the current selection at 10. An illustration of a customer service team is shown below the slider. At the bottom of the main content area, there is a dark blue 'Continue' button with a right-pointing arrow.
