You can now choose between the option to use a Gregorian or Arabic calendar for custom date fields.

The screenshot shows a user profile configuration interface. At the top, there are fields for 'Agent' (John Doe), 'Team' (None), and 'Followers' (Broderick Mori). Below these are 'Labels' (bartell inc, bayer-o'kon, flatley-bednar, hahn ltd, kessler) and 'Language' (French). A 'New Calendar' field is present, and a Hijri calendar widget is displayed. The widget shows the date 11 of the month of Jumadil Akhir, 1438. The widget has a grid of dates and is currently set to 'New Calendar'.
