Support for 3CX voice system Collecting Feedback

- MW Michael W.
- **Forum Navn':** #Feature Request

Any change for an integration of the 3CX phone systems? They already offer integrations for Zendesk, Freshdesk and Salesforce to create tickets for Answered/Unanswered calls (inbound and outbound). For example:
<https://www.3cx.com/docs/zendesk-crm-integration/>

This is a big one for me, our company has just moved to 3CX but also wanting to get away from Zendesk. If this happens, choosing Deskpro will be a no brainer.
