You can customize the text on the Help Center **Contact Us** button where users submit tickets. For instance, if you'd like to rename it from "Contact Us" to "Submit Tickets".

Go to **Admin > Configuration > Phrase Translation**. Click the Help Center UI tab and search for helpcenter.general.nav contact.

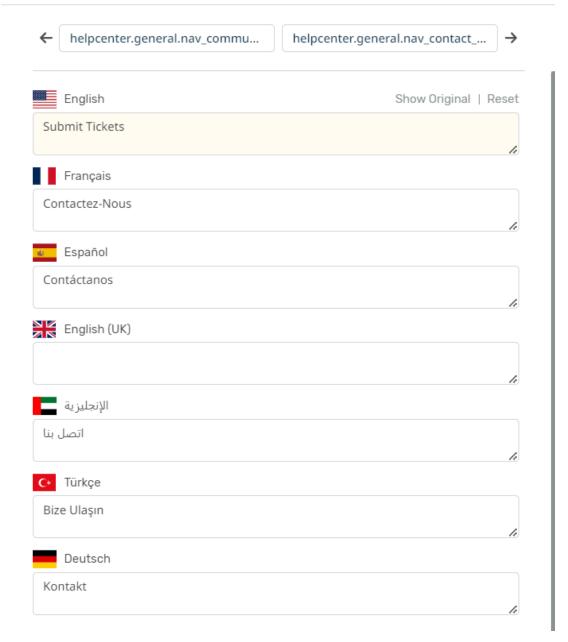

Click the highlighted row and edit the text for your language.

Click **Save** at the bottom of the page.

Edit: helpcenter.general.nav_contact

Now when you go to the Help Center, you will see your custom button name.
