

DeskPRO Build #227 Released

2013-01-29 - Chris Padfield - Kommentarer (0) - Release Announcements

We are pleased to announce a new release of the DeskPRO helpdesk platform, build #227.

The following is an automatically generated list of changes in this release:

- Fix validation of date field values using data from db (e.g., viewing ticket with date already set)
- Fix reference to page in snippet overlay
- Fix auto-start billing option

If you are using the cloud version of DeskPRO, your account will have already been updated or will be updated within the next 24-48 hours.

If you are using DeskPRO download, you can update your installation from the admin interface.
