☐ We've introduced new options to the sort, group, and view preferences for Ticket Queues to give you more power and flexibility (SC 102790).

Advanced Sorting, Grouping, and View options:

- Email Account
- Hours Agent Waiting
- Total Hours Agent Waiting
- Ticket Text Custom Fields
- Ticket Labels

You're also able to Sort and View Tickets based on **Ticket Ref**. And we have added Grouping for **Status & Sub-Status**.

And for those that prefer to interact with Tickets in our Kanban View, you can view the following **Date & Time** Values:

- Date Created
- Date of Last User Reply
- Date of Last Agent Reply
- Date Resolved
- Hours Agent Waiting

- Hours User Waiting
- Total Working Hours Agent Waiting
- Total Working Hours User Waiting

This update will help make your tickets easier to manage and make organizing requests more efficient, saving you time and effort.

☐ We added enhancements to our voice system permissions by giving Admins control over which Agents can set themselves as unavailable for a call queue (SC 128251)! Here's how this additional permission option benefits both Admins and Agents:

- 1. More control for Admins: You can now restrict which agents can set themselves as unavailable for a queue. This offers more flexibility and control over your team's availability and ensures that calls are always attended to
- 2. Empowered Agents: As an agent granted permission to set yourself as available or unavailable to answer calls to queues you are in, you gain more control over your workload and can manage your time more effectively.

organization will be pre-populated in the Ticket Form (SC 131757).

\square We have separated the Facebook and Instagram channels in Admin to make the setup and management of the two channels clearer (SC 125673).
Now when you go to set up accounts via the specific channel page the relevant fields will be filled in by default to simplify the flow and make it easier to add your <u>Facebook</u> and <u>Instagram</u> Business Accounts to Deskpro.
$\ \square$ The Ticket History will show when the actions performed on a Ticket were carried out by a Macro. This will be indicated by the Macro ID to make clear which actions were the result of the Macro (SC 101129).
\square We've updated the Team selector on the Ticket Information, now when you hover over the section it will show Add Team or Remove Team (SC 98668).
