Have variable dropdown lists in alphabetical order or ability to choose order Collecting Feedback

- C Conor
- **Nazwa forum:** #Feature Request

When creating a variable in the reporting interface, and if there are a lot of options, the list goes by ID number rather than alphabetical etc.

The screenshot shows a web interface for creating a variable. On the left, there's a sidebar with a 'Display' section containing a 'Table' button and a 'Download as CSV' link. Below that is a 'Sla Status' section with a list of options: 'fail', 'ok', and 'warning'. At the bottom of the sidebar, it says 'Reset order | Showing 1'. The main area shows a dropdown menu for 'org drop down test Schoen Ltd'. The dropdown list contains 15 items, which are not in alphabetical order: Cremin, Corkery and Yundt; Kilback-Connelly; Morar, McCullough and O'Hara; Kuhlman, Schinner and Hills; Treutel Group; Skiles, Ebert and Kunze; Iced Caps; Ondricka and Sons; Considine-Wehner; Ruecker, Paucek and Runte; Littell, Hegmann and Huels; Schoen Ltd; Predovic-Nikolaus; Gargantuan Space Travel; Metz, Hammes and Mante; Quitzon-Cremin; Johnson-Lang; and Rowe-Spencer. A scrollbar is visible on the right side of the dropdown list.

We would like to be able to choose to have the dropdown in alphabetical order.
