

Changing the order of messages on a ticket

Lara Proud - 2023-08-31 - Komentarze (0) - Agent

In Deskpro, you can change the direction in which chronological messages are displayed on a ticket for your own account. You can toggle whether the most recent message displays at the top of the ticket thread, or at the bottom from an open ticket.

On the Messages tab at the top of the **Ticket Content Pane**, click the arrows to switch the order of your ticket messages in the thread:

The screenshot shows the Deskpro ticket interface. At the top, there is a 'Messages' tab with a toggle switch and a dropdown menu labeled 'Display latest message last'. To the right of the toggle are icons for 'Delete', 'Lock', 'Macro', 'Follow Up', and 'More'. Below the toggle, the ticket thread is displayed with five messages. The messages are: 1. An 'AGENT NOTE' from Oct 12, 2022, 4:34 PM, #5, with the text '@Lara Proud can you check on this account?'. 2. An 'AGENT NOTE' from May 2, 2022, 6:05 PM, #4, with the text 'Escalation: The customer has not replied in 7 days. Follow up or resolve the ticket.'. 3. An 'EMAIL' from Apr 25, 2022, 6:03 PM, #3, with the text 'Hi, Is this still an ongoing issue? Kind regards, Hannah'. 4. An 'AGENT NOTE' from Apr 20, 2022, 5:24 PM, #2, with the text '@Greg Lestrade can you take this on?'. 5. An 'EMAIL' from Apr 20, 2022, 5:22 PM, #1, with the text 'Hi Agatha Thank you very much for your message. Many of our agents are busy at the moment working to solve other customers' queries, so I appreciate your patience! We aim to respond with more information surrounding this question within the hour! Kind regards, Hannah'.

Changing the order from the Agent interface will only impact your own view of the ticket message order.

Interface Defaults

Alternatively, Admins can set the Default Message Order for the helpdesk from **Admin > Business Rules > Interface Defaults**, by checking the checkbox **Reverse Message Order**. When this is selected, the default message order will be to show the latest message at the top of the thread.
