2024-08-29 - James Godwin - Komentarze (0) - Deskpro Releases

We are thrilled to announce the release of Deskpro Horizon, version 2024.35. This update brings a host of new features, enhancements to product functionality and interface, and several important bug fixes.

#### **New Features**

#### ☐ Enhance phone support capabilities with Voice Premium

We're excited to announce the launch of **Voice Premium** features, designed to enhance support capabilities. Three new features are now available:

- Call Monitoring: Allows supervising agents to listen in on live calls, provide real-time support, and gain valuable insights into customer experience.
- Ranked Routing: Enables ranking agents based on skill or expertise, ensuring customer calls are routed to the most suitable agent first.
- Wrap-Up Time: Allows agents to complete post-call activities without interruption, including writing notes and sending follow-up emails.

These features are available for Professional and Enterprise plans at no additional charge and are designed to maximize productivity, ensure quality assurance, and provide personalized service.

## **Latest Improvements**

$\square$ A new Card has been added to Messenger, the Link Card, which allows you to display links to users interacting with Messenger (SC 145032).
$\hfill \square$ We have improved the file upload experience for users interacting with a chatbot, making it smoother and more efficient (SC 158916).
$\ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ $
$\square$ We've improved the Auto Publishing feature for Articles, Files, News Posts, and Guide Pages. You can now set them to automatically publish from a draft, rather than the previous behavior where the item had to be in an unpublished state to be scheduled (SC 141079).
$\ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ $
Bug Fixes
$\ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ $
$\ \square$ The <b>Resolve Ticket</b> button will now display to users viewing their tickets on the Help Center, allowing users to resolve their pending tickets (SC 146679)
$\ \square$ Deskpro's Shift feature has been fixed so it once again respects a shift's timezone for more accurate scheduling (SC 151101)
$\ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ $
$\hfill\Box$ The issue of not being able to run a macro that calls another macro has been resolved, allowing for more complex workflows (SC 158434)
$\ \square$ Resolved the issue where agents would see <b>Voice error: device offline</b> to reduce unnecessary errors (SC 145342)
$\ \square$ We have fixed the problem of tickets getting stuck in the live state when an incoming voice call is canceled while being answered by an agent to ensure tickets are properly updated (SC 160086)
$\square$ Admins will no longer be able to create triggers that add tickets to a brand that isn't associated with a department, preventing incorrect trigger setup (SC 160012)
$\ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ $
$\square$ We have fixed Agent Team avatars, it is now possible to upload a custom image to use as a team's avatar for more customization (SC 156573)
