

I want to buy Deskpro but I need you to send me a quote or invoice

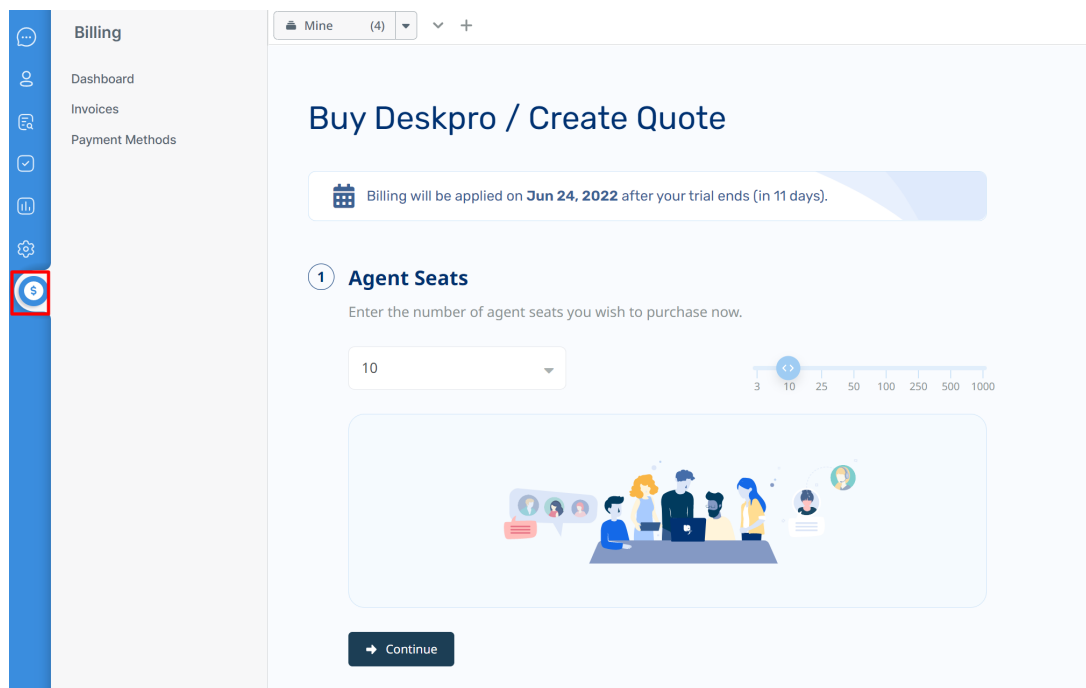

Ben Henley - 2023-08-10 - Comentário (1) - Payment & Renewals

On-Premise

You can generate your own Deskpro On-Premise invoice easily by visiting the [Buy License](#) link on our website. You can select the number of agents you require, your plan, and any professional services and then generate an invoice or quote.

Cloud

Cloud invoices can be raised from the Billing area of your Cloud trial. You can access the Billing area through the \$ icon on the Navigation Bar, indicated below. You can select the number of agents you require, your plan, and any professional services and then generate an invoice or quote.

The screenshot displays the Deskpro user interface. On the left, a vertical navigation bar contains several icons, with a red square highlighting the '\$' icon. The main content area is titled 'Buy Deskpro / Create Quote'. At the top, a notification states: 'Billing will be applied on Jun 24, 2022 after your trial ends (in 11 days)'. Below this, the 'Agent Seats' section is active, showing a dropdown menu with '10' selected and a slider control ranging from 3 to 1000. An illustration of a team of people is shown below the slider. A 'Continue' button is located at the bottom of the main content area.
