

DeskPRO Build #146 Released

2012-10-16 - Chris Padfield - Comment (1) - Release Announcements

We are pleased to announce a new release of the DeskPRO helpdesk platform, build #146.

The following is an automatically generated list of changes in this release:

- Ensure that, when merging choice-based custom fields that can have only one value, only one value is actually specified.
- Log lost data when merging tickets.

If you are using the cloud version of DeskPRO, your account will have already been updated or will be updated within the next 24-48 hours.

If you are using DeskPRO download, you can update your installation from the admin interface.
