DeskPRO Build #22 Released

2012-06-29 - Chris Padfield - Comentário (1) - Deskpro Releases

We are pleased to announce a new release of the DeskPRO helpdesk platform, build #22.

The following is an automatically generated list of changes in this release:

- Fix notice when exception is not set on info array
- Fix agent teams not being displayed in listing because setting was off
- Fix display of agent team in list
- Add select2 to department/cat/pri/workflow as well

If you are using the cloud version of DeskPRO, your account will have already been updated or will be updated within the next 24-48 hours.

If you are using DeskPRO download, you can update your installation from the admin interface.
