

## New DeskPRO Website

2015-06-08 - Ben Henley - Comment (1) - Product

We've revamped [the DeskPRO website](#), with a fresh design to reflect the fact that DeskPRO is the cutting-edge helpdesk platform for 21st century organizations.

The screenshot shows the new DeskPRO website homepage. At the top, there's a navigation bar with the DeskPRO logo, a search bar, and links for 'TOUR', 'DESKPRO FEATURES', 'PRICING', 'CUSTOMERS', and 'SUPPORT'. A prominent blue button says 'Start your free DeskPRO trial', with subtext 'No credit card required' and '30 second setup'. Below this, a large image displays the DeskPRO interface on a computer screen, showing a list of tickets and a detailed view of a ticket. To the right of the interface, there's a badge for '12 YEARS ESTABLISHED 2003' and a prompt to 'Get the mobile apps' with icons for iOS and Android. The bottom section, titled 'Who's Already Using DeskPRO?', features the text 'The world's largest organizations trust DeskPRO to manage their customer support at scale.' followed by a grid of logos for various clients: Microsoft, HM Revenue & Customs, Cabinet Office, YAHOO!, tumblr., xerox, VALVE, 2CC, bitdefender, FLIGHT CENTRE, Panasonic, ARROW, PURE, NHS, I&I, INNOVA, bayt, Imagination, Southwire, HOTEL Chocolat, and Booz | Allen | Hamilton. A 'Click here to chat with us' button is at the bottom right.

There's now a lot more detailed information about DeskPRO's features, and how our platform helps deliver excellent customer service for organizations of all sizes. If you're trying to convince your workplace to adopt a modern helpdesk, or you just want to spread the word about us, be sure to take a look, and send a link to the new site to anyone who

could benefit from DeskPRO.

We've updated our [customer testimonials page](#) to include more of the big names who rely on DeskPRO every day. If you've been happy with your DeskPRO experience and you'd like to help us out by writing a brief recommendation, please drop us a line at [hello@deskpro.com](mailto:hello@deskpro.com).

We'd also like to hear from you if you notice any teething troubles with the new site, like broken links or missing images, or if it doesn't display well in your browser.
