Why are Agent Notes included in Email threads?

Lara Proud - 2023-08-24 - [Comentários \(0\)](#) - [Agent](#)

The Email Notifications for Tickets that you receive as an Agent will include Agent Notes because they are only seen by Deskpro Agents.

The response a User receives does not include the information that Agent Notification Emails do, and they will not receive a new message when an Agent Note is added to a Ticket.

Example

Here is the difference between what helpdesk Agents will see in the Email Notifications:

[#59 MENTIONED] Re: Booking Request - Boiler Service [External](#) [Inbox](#)

 **Lara Proud** @gmail.com via sendgrid.net
to me ▾

==== REPLY ABOVE [[Help](#)] ====
-- Your reply will be added as a private agent note

@Hannah Scott can you contact the agency and book the appointment when Laura replies

Hi Laura,

Of course, the next appointments we have available are on Friday 23rd June at 13:00 or 15:30. Can you let us know if either of these times work for you?

Best regards,

Lara

You can also see which notifications are sent to different individuals by checking the Ticket History tab, helping you feel confident that the Agent Note is not sent to an end-user:

The screenshot shows the Deskpro interface with the 'History' tab selected. The interface is divided into three main sections: 'Messages' (top), 'History' (selected), and 'Agent Note' (bottom).
Messages Section:
- A message from 'Laura Prod (laraproud3@gmail.com)' with the subject 'Can you book a service for my boiler please?'.
- A message from 'Lara Proud (laraproud3@gmail.com)' with the subject 'Hi Laura, Of course, the next appointments we have available are on Friday 23rd June at 13:00 or 15:30. Can you let us know if either of these times work for you? Best, Lara'.
Agent Note Section:
- An Agent Note from 'Hannah Scott <hannah.scott@deskpro.com>' with the subject '@Hannah Scott can you contact the agency and book the appointment when Laura replies'.
A red arrow points to the 'History' tab in the top navigation bar.

This tab will show who is notified about each individual message that is added to the ticket, in this case only Hannah is emailed about this Ticket response:

The screenshot shows the 'New Reply' section with the 'Agent Notes' tab selected. The interface includes a 'New Reply' button, a note from 'Lara Proud' (ID 148), and an agent note from 'Hannah Scott' (ID 122, labeled 'emailed').
- A note from 'Lara Proud' (ID 148).
- An agent note from 'Hannah Scott' (ID 122, labeled 'emailed').
A red box highlights the 'ID 122' button, which is labeled 'emailed'.
