## **Deskpro Android App Release 1.01**

2017-10-04 - Benedict Sycamore - <u>Comentários (0)</u> - <u>Deskpro Releases</u>
We're delighted to announce the release of Deskpro for Android 1.01

Deskpro for Android 1.01 includes the feature updates, bug fixes and improvements listed below:

## **Features:**

- Ticket attachments can now be opened
- Users now have the ability to 'set ticket to spam'

## Improvements:

- Department lists now display in the correct order set by user
- · Date formats are now localized
- Users now have the ability to set captcha requirements via the app

## **Bug fixes:**

- Better helpdesk detection and recognition when HTTPS is enforced
- Blank log in error now resolved

To download the latest version of Deskpro for Android, visit the Google Play Store.
