We are thrilled to announce the release of our latest Deskpro app, [Xero](#). This integration offers seamless connectivity between your Xero contacts and Deskpro users, providing your agents with access to relevant information related to the contacts in Xero from the helpdesk.

With this integration, agents can view key information about your contact's invoices and bills, as well as any notes that have been added to their Xero profile. The best part is, they can do this all without leaving their Deskpro interface. This enhanced visibility empowers agents to respond to user inquiries more efficiently and with full context.

The screenshot displays the Deskpro Xero app interface, which is divided into two main panels. The left panel shows the contact details for 'Example Solutions Inc', including the primary person 'Sarah Peterson' and her email 'sarah@example.io'. Below this, there are sections for 'Invoices (2)' and 'Bills (2)'. The right panel shows a detailed view of an invoice, 'IV-0003', for 'Tech Equipment' with a total amount of 3,000.00 GBP. The invoice is marked as 'Paid'.

Account	Qty	Disc %	Tax
Equipment	2	5%	20%

Item	Amount
Tech Equipment	1,500.00 GBP
Subtotal:	3,000.00 GBP
Total VAT 20%:	600.00 GBP
Total:	3,600.00 GBP
Payment:	3,600.00 GBP
Amount Due:	3,600.00 GBP

With the Deskpro Xero app, you can streamline your helpdesk operations and boost your agents' productivity. We can't wait to see how it transforms your workflow.

We're continuously working on building new features that will enhance the Deskpro Xero app's capabilities. In the coming weeks, you can expect to see additional functionality, including the ability to view more details about contacts, invoices, bills, purchase orders, payments, and notes.
