New Chat Widget colors available

2017-05-30 - Zara Marchesi - [Comentários \(0\)](#) - [Product](#)

You can now set colors for the Chat Widget itself, allowing you to customize this feature even more!

How do I set the color?

Simply go into Admin > Chat > Site Widget & Chat, and customize your colors!

The screenshot displays the 'Site Widget & Chat' configuration interface. On the left, the 'Button settings' section is expanded, showing options for Label, Size, and Colors. The 'Colors' section is currently set to 'Background color' with a color picker showing the hex code #e60300. The main area shows a preview of the chat widget on a Google search page. Two black arrows point from the color picker to the chat widget's background and the 'Click for help' button.
