Can I pay you to add a feature to Deskpro?

Ben Henley - 2022-06-13 - Comments (0) - Payment & Renewals

Yes, we will consider custom development work to tailor Deskpro to your needs. This can be anything from adding a widget to tweak the agent interface, to developing an integration with another piece of software you use, to sponsoring faster development of a feature that is already on our roadmap.

We will give you a fixed price quote.

Learn more on our [Consultancy](#) page or reach out to sales@deskpro.com for more details.
