DeskPRO Build #109 Released

2012-08-31 - Chris Padfield - Comments (0) - Deskpro Releases

We are pleased to announce a new release of the DeskPRO helpdesk platform, build #109.

The following is an automatically generated list of changes in this release:

- Remove another Process and replace with passthru
- Fix height of gear icon
- Dont use Process to run dp3 upgrade as it can hang Windows, fix rare case with dupe refs from old dp3 databases
- Older dp3's dont have a register_url setting
- Turn on display errors in legacy upgrader
- Correct error reporting (E_STRICT) on legacy upgrade pre-runner

If you are using the cloud version of DeskPRO, your account will have already been updated or will be updated within the next 24-48 hours.

If you are using DeskPRO download, you can update your installation from the admin interface.
