

New Chat Widget colors available

2017-05-30 - Zara Marchesi - Comments (0) - Product

You can now set colors for the Chat Widget itself, allowing you to customize this feature even more!

How do I set the color?

Simply go into Admin > Chat > Site Widget & Chat, and customize your colors!

The screenshot displays the 'Site Widget & Chat' configuration interface. On the left, the 'Button settings' panel is visible, featuring a 'Label' field with the text 'Click for help', a 'Size' selector with 'Medium' selected, and a 'Colors' section. The 'Background color' is set to '#e60300', and a color picker is open, showing a red color selection. Below the color picker, there are options for 'Right' and 'Left' placement. The right side of the interface shows a preview of the chat widget on a website. The preview includes the Google logo, a search bar, and a chat window with a 'Sample question' and 'Sample answer'. A red arrow points from the '#e60300' color code in the settings to the chat widget's background color in the preview. At the bottom of the preview, there are buttons for 'Discard changes', 'Save', and 'Reset to default'.
