

New Chat Widget colors available

2017-05-30 - Zara Marchesi - Comments (0) - Product

You can now set colors for the Chat Widget itself, allowing you to customize this feature even more!

How do I set the color?

Simply go into Admin > Chat > Site Widget & Chat, and customize your colors!

The screenshot displays the 'Site Widget & Chat' configuration interface. On the left, the 'Button settings' panel is visible, featuring a 'Label' field with the text 'Click for help', a 'Size' selector with 'Medium' selected, and a 'Colors' section. The 'Background color' is currently set to '#e60300'. A color picker is open, showing a spectrum of colors, with a black arrow pointing from the '#e60300' text to the selected red color in the picker. Below the color picker are options for 'Right' and 'Left' placement. The right side of the interface shows a preview of the chat widget on a website. The preview includes the Google logo, a search bar, and a chat window with a 'Sample question' and 'Sample answer'. A red arrow points from the 'Sample answer' text in the preview to the 'Sample answer' label in the settings panel. At the bottom of the settings panel, there are buttons for 'Discard changes', 'Save', and 'Reset to default'. A 'Click for help' button is also present in the preview area.
