

## New Reports

2018-05-21 - Christopher Nadeau - Comments (0) - Product

As part of product release [Deskpro 2018.1](#), we're delighted to announce a brand new update of the reporting interface within Deskpro.

### What's new with Reports?

The new Reports update consists of the following improvements:

Stats now have labels, so you can find the specific stats you'd like to include in a report with ease and speed.

### Variable Builder

We have also introduced a Variable Builder, which makes it easier to add variables when building queries for reports.

### Widget Options Override

After you've added a widget to a report, you can edit it to set widget overrides.

### Thanks for reading

If you are using Deskpro Cloud, we will roll out this update to your helpdesk soon.

If you are using Deskpro On-Premise, you can update your helpdesk to the latest version from your Admin Interface.
