

## How can I change the name of the "Contact Us" tab?

Matthew Watt - 2023-08-30 - Comments (0) - Admin

Go to **Admin > Configuration > Phrase Translation**, then select the **Help Center UI** tab. Then you can type **"contact"** in the search box to quickly find the relevant phrases.

From here, you will want to search and click on the entry labeled `helpcenter.general.nav_contact`

The screenshot shows the 'Phrase Translation' interface in Deskpro. The left sidebar has a 'CONFIGURATION' section with 'Phrase Translation' highlighted. The main area has a search bar with 'contact' entered. Below the search bar, there are two sections: 'Help Center UI' and 'Help Center General (2)'. The 'Help Center General (2)' section contains a table with the following entries:

Phrase	English	Customized?
helpcenter.error.contact	If you feel that this is an error, please <b>contact</b> us.	
helpcenter.error.contact_us	<b>Contact Us</b>	
helpcenter.general.nav_contact	<b>Contact Us</b>	
helpcenter.general.nav_contact_desc	Get in touch for help	

A menu will open that will let you change your phrase on the right-hand side, then click save.
