JIRA integration app David Pinto - 2023-09-12 - Comments (0) - Admin

The updated JIRA integration app enables agents to link Deskpro tickets with issues in Jira.

What the JIRA app does

With the app installed, agents can do these things from within Deskpro:

- Create a linked JIRA issue based on a ticket
- Link a ticket to one or more existing issues
- View linked issues from a collapsible JIRA pane at the right of each ticket
- Add comments to linked JIRA issues

JIRA users can see which Deskpro tickets are linked to a JIRA issue.

With some additional configuration in JIRA, admins can:

- Create Ticket Update triggers that respond to changes to linked tickets within JIRA
- Create trigger criteria based on JIRA issues/comments

• Use an automation action to add JIRA comments in triggers/SLAs/escalations
