

Sub-Statuses

2019-03-12 - Christopher Nadeau - Comments (0) - Product

As part of our 2019.3 release for Deskpro, we are happy to announce our new [Sub Status](#) feature. This new feature allows you to create new sub-statuses that are associated with the existing core statuses, and allow your Agents to better define what state the ticket is in.

To add a new sub status, go to Admin > Tickets > Status and click '+ Add Status'

The screenshot shows the 'Statuses' management interface. On the left, there are two panels: 'Statuses' and 'Hidden Statuses'. The 'Statuses' panel lists: Awaiting Agent, Awaiting User, Pending, Resolved, and Archived. The 'Hidden Statuses' panel lists: Deleted and Spam. Below these panels is a '+ Add Status' button. On the right, the 'Status Type' dropdown is set to 'Awaiting Agent'. Below it is a 'Title *' input field. At the bottom right of the form is a 'Save' button.

Your new sub-statuses will give you the option of being more specific with a tickets journey and can also be used within triggers and follow-ups etc so you can always be sure the ticket is in the correct state.
