If you want to keep up with any changes in Deskpro we have a number of different ways you can follow along.

Release Announcements

We release upgrades to Deskpro every week and publish News Posts that detail the product changelog including any new features, improvements, and bug fixes.

You can subscribe to receive Deskpro News, or subscribe to individual categories depending on what updates you want to receive! Just got to the News page, or the relevant category and hit the **Subscribe** button.

The screenshot shows the 'News' section of the Deskpro interface. It features a list of news items with dates, titles, and authors. A red arrow points to the 'Subscribe' button in the top right corner. The dropdown menu is open, showing options for 'All News', 'Release Announcements', 'Product', 'Product (Agent)', 'Product (Admin)', 'Blog', and 'News'. There is also a 'Select Date' dropdown at the bottom of the menu.

Here are some quick links to each area:
