## New Chat Widget colors available

2017-05-30 - Zara Marchesi - [Komentarjev \(0\)](#) - [Product](#)

You can now set colors for the Chat Widget itself, allowing you to customize this feature even more!

### How do I set the color?

Simply go into Admin > Chat > Site Widget & Chat, and customize your colors!

The screenshot displays the 'Site Widget & Chat' configuration interface. On the left, the 'Button settings' section is expanded, showing options for 'Label' (set to 'Click for help'), 'Size' (set to 'Medium'), and 'Colors'. The 'Colors' section is further expanded to show a color picker for the 'Background color', with the hex code #e60300 selected. The main area shows a preview of the chat widget on a Google search page. Two black arrows point from the color picker to the chat widget's header and the 'Click for help' button.
