

How do I assign out-of-hour tickets to a particular team?

Ben Henley - 2024-01-09 - Comment (1) - Deskpro Legacy

Suppose you want to treat incoming tickets differently if they are created outside of working hours. In this example, we'll show how to assign them to a night shift team.

This is easy to accomplish with triggers:

Title *

This title will be used throughout the admin interface to refer to this trigger.

Event When a new ticket is created

<input checked="" type="checkbox"/> By a user	<input checked="" type="checkbox"/> By an agent
- <input checked="" type="checkbox"/> via the web ⚙	- <input checked="" type="checkbox"/> via the agent interface
- <input checked="" type="checkbox"/> via email	- <input checked="" type="checkbox"/> via email
- <input checked="" type="checkbox"/> via the API	- <input checked="" type="checkbox"/> via the API

Criteria ⓘ

when The following conditions are met:

Default working hours Set custom working hours

or The following conditions are met:

Actions ⓘ

then The followings actions will run:

Set Assigned Team

Note that the "working hours" used will be those **Default Working Hours** in **Tickets > Settings** - but you could choose to specify custom hours just for this trigger.

You'd probably also want the same team to receive *replies* to tickets from users, not just new tickets:

Title *
This title will be used throughout the admin interface to refer to this trigger.

Event When a new reply is submitted

By a user By an agent

- via the web ⚙
- via email
- via the API

Criteria ?

when The following conditions are met:

▾

Default working hours Set custom working hours

Criteria

or The following conditions are met:

Criteria

Actions ?

then The followings actions will run:

Set Assigned Team

Action
