How do I remove chat from my portal while still offering chat on a different site?

Ben Henley - 2023-05-25 - Comments (0) - Deskpro Legacy

Question:

How can I remove chat from my portal altogether, but still allow users to chat from a different website using the embedded chat widget?

Answer:

You can remove the chat widget from the lower right of the portal by editing the portal templates.

In admin, go to **User Interface > Portal > Template Editor** and edit the *layout.html* template.

At the bottom of the template you'll see a section labelled <!-- Deskpro Chat Loader -->. Delete (or comment out) all the code in that section (see image below) to remove the chat widget.

Note that if you wanted to disable chat everywhere, you could disable it from **Admin > Chat > Site Widget & Chat**.

That would disable chat on the portal *and* on any websites where you had embedded the chat widget. The advantage of the method explained in this article is that it removes chat from the portal only.

Code to delete to remove chat widget from portal

```
UserBundle::layout.html.twig
          <script type="text/javascript" src="{{ asset('vendor/less/less.min.js') }}"></script>
   306
   307
      {% endif %}
   308
   309
      {% if not app.getSetting('user.disable_chat_element') and not app.admin_portal_controls and app.user
   310
          <!--DP_OFFLINE_CACHE_REMOVE_START-->
   311
          <!-- DeskPRO Chat Loader -->
   312
          <script type="text/javascript">
          if (!DpChatWidget_Options) {
  313
             314
  315
  316
  317
             {% if constant('DP_DEBUG') %}var DpChatWidget_EnableDebug = true; {% endif %}
  318
   319
             320
             DpChatWidget_Options.offlinePhrase = {{ phrase('user.chat.window_offline-button')|json_encod
  321
  322
             323
  324
             (function() {
               var scr = document.createElement('script');
scr.src = '//{{ asset_url('javascripts/DeskPRO/User/ChatWidget/ChatWidget.js')|url_trim_scr.setAttribute('async', 'true');
  325
   326
   327
   328
                document.documentElement.firstChild.appendChild(scr);
  329
             300;
   330
          </script>
   331
          <!-- /DeskPRO Chat Loader -->
   332
   333
          <!--DP_OFFLINE_CACHE_REMOVE_END-->
  334
      {% else %}
   335
          <script type="text/javascript" src="{{ app.request.getBaseUrl()|replace({'/index.php':''}) }}/dp</pre>
   336

    Save
```
