

I'm having trouble with translated words appearing in the wrong order

Ben Henley - 2018-03-13 - Comments (0) - Using Deskpro

Question

Some words are displayed out of order in parts of the agent interface.

Answer

This problem can be caused by Chrome's auto-translate feature. In Chrome, go to **Settings** > **Show advanced settings** and disable the "translate pages that aren't in a language you read" option.

If this doesn't fix the problem or you are not using Chrome, find the relevant phrase in the Deskpro admin interface under **Settings** > **Languages** and check the translation. Please correct any translation mistakes you find at <http://languages.deskpro.com/>
