

DeskPRO Build #136 Released

2012-10-03 - Chris Padfield - Comments (0) - Release Announcements

We are pleased to announce a new release of the DeskPRO helpdesk platform, build #136.

The following is an automatically generated list of changes in this release:

- Fix bad scroller on ticket massactions
- Fix icon misplacement in person tab in chrome
- Fetching xxx_id from any domain object will fetch xxx['id'], before youd need to write getXxxId methods for each thing

If you are using the cloud version of DeskPRO, your account will have already been updated or will be updated within the next 24-48 hours.

If you are using DeskPRO download, you can update your installation from the admin interface.
