

Integrate your Xero account with Deskpro

2023-02-21 - Lara Proud - Comments (0) - Product (Admin)

We are thrilled to announce the release of our latest Deskpro app, [Xero](#). This integration offers seamless connectivity between your Xero contacts and Deskpro users, providing your agents with access to relevant information related to the contacts in Xero from the helpdesk.

With this integration, agents can view key information about your contact's invoices and bills, as well as any notes that have been added to their Xero profile. The best part is, they can do this all without leaving their Deskpro interface. This enhanced visibility empowers agents to respond to user inquiries more efficiently and with full context.

The screenshot displays the Deskpro Xero app interface, showing contact details, invoices, and bills. The interface is divided into two main sections: contact information and financial data.
