### DeskPRO for iPhone and Android

This initial version of the DeskPRO app includes:

- Access your ticket filters to get lists of tickets
- View individual tickets, to see the ticket messages, notes, and properties
- Reply to tickets
- Change ticket properties like department, status, or agent
- Ticket notifications shows you real time ticket updates
- View inline images and download ticket attachments

**Ken McKinnon**

pre 10 godina

Is there any way you could add a search to this?

**Roshan**

pre 10 godina

Is there a newer version that will be released ?

**Sanjay**

pre 9 godina

Very much required, as there is no way to reach out to unlisted ticket.

**Ben Henley**

pre 8 godina

A new version with search and the ability to create new tickets is coming soon.
