

New Chat Widget colors available

2017-05-30 - Zara Marchesi - Comments (0) - Product

You can now set colors for the Chat Widget itself, allowing you to customize this feature even more!

How do I set the color?

Simply go into Admin > Chat > Site Widget & Chat, and customize your colors!

The screenshot displays the 'Site Widget & Chat' configuration interface. On the left, the 'Button settings' panel is expanded, showing options for 'Label' (set to 'Click for help'), 'Size' (set to 'Medium'), and 'Colors'. The 'Background color' section is active, showing a color picker with the hex code #e60300 selected. A black arrow points from this color picker to the 'Sample answer' button in the chat widget preview on the right. The preview shows a chat window with a 'Flexforce' header, a 'Google UK' logo, and a chat history including 'Sample question' and 'Sample answer'. The interface also includes a 'Preview Mode' dropdown (set to 'Button'), a 'Sign In' button, and 'Discard changes', 'Save', and 'Reset to default' buttons at the bottom.
