Add ability to search by custom ref codes Finished

Please add the ability to have the main search box search by ticker ref codes that are custom.<br /><br /> Currently, the search will only work if the ref code is the default one which is in the form of <A><A><A><A>-<br /><br /> <#><#><#><#>-<A><A><A><A><br /><br /> This is a very long ref code and we would like to customize it without losing the ability to search tickets by it.
