We are excited to introduce a new addition to Deskpro's Agent Permissions with **Can Unassign Agents**. This enhancement evolves the existing 'Can Assign Agents' permission into two separate permissions: 'Assign Agents' and 'Unassign Agents', providing more flexibility in managing workload and ticket distribution.

Q	Own	Unassigned	Followed	Assigned

Set status to pending	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

The 'Unassign Agents' permission will allow you to permit agents to remove other agents from tickets as required, ensuring a balanced workload and efficient attention to each ticket.

This enhancement of the Agent Permissions is designed to give you increased control over the ticketing process, leading to a more balanced workload distribution and an overall smoother operation.
