# DeskPRO Build #55 Released

2012-07-19 - Chris Padfield - Kommentarer (0) - Release Announcements

We are pleased to announce a new release of the DeskPRO helpdesk platform, build #55.

The following is an automatically generated list of changes in this release:

- Fix case-sensitivity when choosing correct transport to send email with
- Import 'custom' fields as text inputs
- Billing needs own login controller
- Add way to generate login token to login with accounts

If you are using the cloud version of DeskPRO, your account will have already been updated or will be updated within the next 24-48 hours.

If you are using DeskPRO download, you can update your installation from the admin interface.
