

New Chat Widget colors available

2017-05-30 - Zara Marchesi - Kommentarer (0) - Product

You can now set colors for the Chat Widget itself, allowing you to customize this feature even more!

How do I set the color?

Simply go into Admin > Chat > Site Widget & Chat, and customize your colors!

The screenshot displays the Deskpro Admin interface for configuring the chat widget. On the left, the 'Site Widget & Chat' settings are shown. The 'Button settings' section is expanded, revealing options for 'Label', 'Size', and 'Colors'. The 'Colors' section is further expanded, showing a color picker for the 'Background color' of the 'Right' button. A black arrow points from the color picker to the 'Right' button in the chat widget preview on the right. The preview shows a chat widget with a Google logo, search buttons, and a chat history.
